

Planar

(pre 2011)

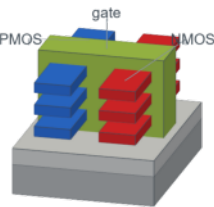

FinFET

(2011–2023)

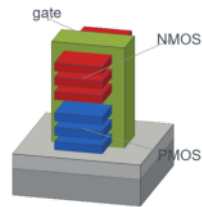

GAAFET

(2023–)

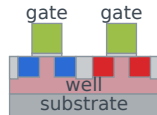

CFET

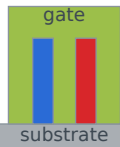

(2032?)

cross-
section

gate controls one face

gate wraps 3 sides

gate wraps 4 sides

two devices, one footprint

color = circuit role (after the classic evolution diagram): gate green, PMOS blue, NMOS red, well pink, isolation (oxide) and substrate grey; solid backend
